A Guide to the Video Control Console

Options Available:

1) Quick Option: Allows the display of content from one video source to one or more displays.

2) Advanced Option: Allows the display of content from multiple video sources to one or more displays at the same time.

(If no Advanced Options are displayed, please click the “Advanced Options” button)

How To Use (Quick Option)

Step 1: Please have the content you wish to display ready. If you plan to use the HDMI or VGA cables, please have the cables plugged into your machine.

Step 2: Select an input by clicking the dropdown to the right of “Display”. (Choose to display from Podium, HDMI, VGA, or Blank)

*Selecting blank is the same as displaying a blank screen.

Step 3: Choose an output display. (Projector or TV1 & TV2)

Step 4: When you are finished with your choice, please hit the “Yes” button. Do not skip this step!

(In this example, the projector will display whatever is connected to the VGA cable)

This Conference Room supports Apple AirPlay.
To mirror your display to the Podium PC with AirPlay, please connect to Wireless network “CS-Research”
**How To Use: (Advanced Options)**

**Step 1:** Please have the content you wish to display ready. If you plan to use the HDMI or VGA cables, please have the cables plugged into your machine.

**Step 2:** For each output you wish to use (Projector, TV1, TV2), please select the input you wish to display from (See Step 2 in How To Use: Quick Options)

**Step 3:** When you are finished with your choices, click the “Yes button” for each of the output choices you wish to display. **Do not skip this step!**

*The result of this example will display the Podium on the projector, the HDMI source to TV1, and a Blank Screen on TV2.*
