Join us from 7 a.m. to 11 p.m. on Oct. 27 for our Halloween Hackathon, where college and high school students and local technology professionals will compete in collaborative computer-programming and problem-solving challenges for prizes, engage in educational workshops and hear from technology leaders, all in alignment with Hacktoberfest—the annual month-long celebration of open-source software.

We will host the event at our headquarters inside Bell Works—a two-million-square-foot building, formerly known as Bell Labs, and the site of breakthrough innovations in cellular phones, fiber optics and telecommunication satellites—in Holmdel, NJ.
