ESCAPE FROM ALCATRAZ
WHEN

June 12th, 1962

Alcatraz Island, San Francisco, California
HOW

Clarence and John Anglin, Frank Morris and Allen West tucked paper mache heads of themselves in their beds.

Slowly widened ventilation ducts in walls using saw blades, spoons and a motorized drill made from a broken vacuum cleaner.

Ducts led to unguarded utility corridor.
WHO IT AFFECTED AND SECURITY CHANGES

Affected the prison security

Noises were heard by guards during escape but never investigated

Blind spots in Northeast shoreline were fixed and now covered by security as well as utility corridor.
